

## FraserStudios Project

**FraserStudios; a new multi-disciplinary art space, produced for Frasers Property by Queen Street Studio**

**CALL FOR PROPOSALS:** FraserStudios Visual Arts Residency Program 2008-2009

Fraser's Property have introduced a new initiative to make creative use of otherwise vacant warehouse space in the old Kent Brewery development site, on Broadway. From September 2008, three warehouses at 10-14 Kensington Street, Chippendale will be temporarily transformed into a multi-disciplinary art space, with the help of Queen Street Studio.

Part of this initiative is a **Visual Arts Residency Program** that will offer **free workspace** to Sydney based visual artists. In total there will be four 3-month (12 week) residencies for 8-10 visual artists/groups per residency from September 2008 to October 2009. The aim of the residency program is to support artistic development and expression with an emphasis on local community development through a diversity of art form practises.

The Residencies will be open to professional artists and groups (emerging and established) encompassing a diverse range of practises and outcomes. All artists must come from NSW and priority will be given to local visual artists (defined as inner-city Sydney) whose practice has been disrupted by development in the local community. The program takes a very broad view of the term *visual arts* and may include but is not limited to painting, sculpture, photography, digital arts, installation and design.

**Submissions are currently open for the third and fourth residency programs:**

**Third Residency Program Start Date:**

13th April 2009 – 26th June 2009

**Fourth Residency Program Start Date:**

6th July 2009 – 27th September 2009

### APPLICATIONS:

**OPEN:** Wednesday 28 January 2009

**CLOSE:** Wednesday 25 February 2009

**NOTIFIED:** 16 March 2009

### ELIGIBILITY

- 18 years of age and over
- A resident of New South Wales, living and working in Sydney

### SELECTION CRITERIA

- Calibre of artist / collaborating artists
- Clear articulation of conceptual rationale and process for the residency
