

Next steps

Today's session is the first event in our community consultation program. It has been designed to:

- ◆ Introduce the project and a broad timeline
- ◆ Provide an opportunity for you to meet the Frasers Property team
- ◆ Provide information on the concept plan that will form the basis for the redevelopment.

The feedback and ideas we receive from you today will help us to:

- ◆ Prepare design briefs for various aspects of the project
- ◆ Better understand the communities we are part of
- ◆ Understand your expectations regarding our undertaking of forthcoming site clearing and stabilisation activity
- ◆ Refine and improve our consultation approach
- ◆ Flag ideas for further investigation.

Over the next few months we will be holding further consultation events where we will start to explore in more detail the design of open spaces and the five precincts that will comprise the site. At these events you will have opportunities to:

- ◆ Meet with the architects, designers and community planners who will be helping us to realise the Broadway project
- ◆ Have input into view emerging ideas for buildings and open spaces.

Our website will be progressively updated to provide more detailed information as the project evolves. If you wish to remain updated on Frasers Broadway, please register your details on the website www.frasersbroadway.com.au or with the Elton Consulting personnel present today.

Thank you for your interest in Frasers Broadway.

Please visit our website for more information as the project evolves. If you wish to remain updated, please register your details on the website or with the Elton Consulting personnel present. today.
